

## Find A Provider

Beebe Healthcare's online Provider Directory can help you find the right healthcare provider for you! Visit [beebehealthcare.org/doctors](https://www.beebehealthcare.org/doctors). Need a new primary care provider? Call 302-645-3332.

## Get In, Get Seen, Get Better

No appointments needed for Walk-In Care. Beebe is proud to offer online scheduling for all of our Walk-In Care locations. Visit [beebehealthcare.org/online-scheduling](https://www.beebehealthcare.org/online-scheduling) to reserve your spot or to learn more.

## Scheduling Labs and Imaging

Beebe requires appointments for all lab and imaging tests. To schedule an appointment for outpatient services at any Beebe location, call 302-645-FAST (3278). All orders can be faxed to 302-645-3975.

## About Beebe

Beebe Healthcare is a not-for-profit community healthcare system with a charitable mission to encourage healthy living, prevent illness, and restore optimal health for the people who live in, work in, and visit the communities we serve. Beebe Healthcare has three campuses: the Margaret H. Rollins Lewes Campus, which houses the medical center; the Rehoboth Beach Health Campus; and the South Coastal Health Campus in Frankford. Beebe Healthcare offers primary care as well as specialized services in the areas of cardiac and vascular, general surgery, robotic surgery, oncology services, women's health, and orthopaedics. Beebe also offers walk-in care, lab, imaging, and physical rehabilitation services at several locations throughout Sussex County, in addition to a Home Care program and an adult activities center.

## Striving for Excellence

Beebe has received four Healthgrades® Five-Star Ratings in Clinical Areas, two Excellence Awards, a recent designation as a LGBTQ Health Care Equality Leader, and The Joint Commission's Gold Seal of Approval.

## Beebe Medical Foundation

Beebe relies on the strong and generous support of donors to fulfill its life-saving mission. The Beebe Medical Foundation was founded to raise funds for the growing needs of Beebe Healthcare and invites you to consider becoming a donor. All gifts are tax deductible. Go to [beebemedicalfoundation.org](https://www.beebemedicalfoundation.org) or call 302-644-2900 to make your gift today. Thank you!

# HOSPITAL AT HOME

Be treated  
in the comfort  
of your own home.

## WE BRING THE HOSPITAL TO YOU

Our Hospital at Home Program allows you to be treated for your medical condition in the comfort of your own home as a substitute for traditional in-patient care.

Beebe Healthcare doctors and nurses will provide the care you need. In addition, your care team may include nurse practitioners, social workers, care coordinators, physical therapists, or other specialists.

## CARE PROVIDED IN YOUR HOME INCLUDES:

- + Transportation back home from the hospital
- + Delivery and set up of any necessary equipment you may need, including IV medications
- + Computer tablet that allows you to see and talk to your doctor or nurse from your home
- + Daily visits from our doctors or nurse practitioners (NPs) in person or through the computer tablet
- + 2 Daily visits by a registered nurse
- + Support from our social workers and physical therapists
- + Assistance scheduling follow-up appointments

**Call 24/7 | 302-291-6290**

**FAX 302-291-6291**

## FREQUENTLY ASKED QUESTIONS:

### What is the difference between being treated at home vs. the hospital?

Generally, patients who participate in the Hospital at Home program are very satisfied. Our patients find being cared for at home to be more restful experience than the hospital.

Our team provides the same excellent care at home as you would receive in the hospital. This includes services such as IV medication, lab tests, physical and/ or occupational therapy, and oxygen concentrators.

### What is the cost of Hospital at Home?

There is no additional cost to you. You only pay the cost of the services provided to you in your insurance plan. While in the program, the computer tablet and other medical equipment is provided to you at no cost but must be returned when the program ends.

### Can I leave my home while in the program?

To ensure your safety, we ask that you stay home during your hospitalization just as if you were staying in the hospital. Your level of activity will depend on your individual condition and overall health status. Your doctor will let you know when you may resume regular activities.

## REMOTE MONITORING

As part of the Hospital at Home program, you will be provided the following equipment along with the computer tablet:

- + Scale
- + Pulse Oximeter
- + Blood Pressure Monitor
- + Thermometer

These items will be collected when you are discharged from the program unless your doctor orders continuation of the equipment through our Home Health department.
